

ATTLE FOR THE RIGHT

Defense of Liberty, Home and Country.

PEAL OF THE POPULIST LEADERS.

yan, Worthy of the Cause, Deserves the Support of Every Voter Who Desires Freedom and Prosperity.

We may fall forever. We feel the pressure of the chains upon our limbs, but they are not yet broken. Shall the "waking masters" have four years more in which to dash their work? Shall we not strike them down now and forever? Shall our children bleed us in our graves; or shall they rise up in their miseries and curse our dismoured dust?

Remember that when liberty dies in the United States it dies in the whole world. This is man's one last, great opportunity. Forget everything else and do your whole duty.

Chairman Populist Committee.

SEAL PROTECTION.

Russia and Japan Will Co-operate With the United States.

Washington, October 27.—It is stated in official circles that the United States will have the co-operation and support of both Russia and Japan in the approaching issue over establishing adequate protection for the fur seals of the Pacific ocean. The question is about to be brought towards two commissions, one American and one British, who have returned after an investigation of the conditions in Bering sea. Aside from the information they have secured Assistant Secretary of the Treasury Hamlin has recently made a report after personal inspection of the seal islands, stating that if no modifications of the Paris award regulations were not agreed to "the fur seal in one or two seasons would be commercially extinct."

The Japanese government stands ready to join the United States in any plan of seal protection and is desirous also of including two others, who are being excluded from the Japanese islands. The co-operation of Japan is said to be of much importance to the United States, as the seal pouches and skins have been found mainly at Japanese ports. A large trade with them has been built up by Yokohama and Nagasaki. Notwithstanding this, the Japanese are taking many steps to protect the seals and the robbers who have bought them are rapidly leaving the whole land with a network of traces, inimical to good government.

THREATEN OUR DEFEAT. Threatened by concerted action of the people. They seek continued power to increase their possessions. The world has no place in their pur-

They come to us from Europe, where they have despised and made a hand of power, where great wealth and great poverty stand perpetually face to face, while hiring armies prey on the poor and protect the robbers who victimize them. They are rapidly using this great, free Republic to the destruction.

Our ancestors fled from the old world to the new to escape the dreadful doom which injustice had inflicted upon them. Rather will our children fly when the flower of this hideous abomination comes forth into perfection? Oppression peoples it. It is our noble civilization to sink in blood, in a blind battle of unfeeling power, striking wild and wounding itself. We stand for the salvation of humanity in the highest state of which it is capable on earth. God, who made the universe and destined it for us, is to the permanent preservation of the seals and others.

The Russian government also, it can be authorized, will welcome protection to the seals. It is pointed out that while Russia owned Alaska and the Seal Islands now attached to the United States there was complete protection to the seals and that the destruction began under America's management.

The "Post" of Russia continues to be to protect the seals on the Russian Islands of the North Pacific and they will be fully in co-operation with the United States toward any concerted action to that end.

WHITE-CAPERS ON TRIAL.

They Escaped on a Former Occasion But Are in Trouble Now.

Aiken, S. C., October 27.—On December 2, 1885, a party of six white men, Messrs. Aikens, Kearse, Jenny, Breffe Standard and Horace, took Kearse, his wife Rosa Kearse, and his mother, Hanna Walker and the negroes from their homes in Colleton county at night, and dragged them several miles and bound a buggy to Breffe Standard, in a lonely swamp. It was a bitterly cold night, but the negroes were made to strip and were then severely beaten with heavy trunks for the alleged crime of stealing a Bible from a church. Kearse and his mother were killed by the flogging and the exposure, while his wife managed to drag herself home, more dead than alive. The Lynchers were tried in Walterboro, the county seat of Colleton county, last February, for the murder of Hanna Walker, and to the surprise of the entire State were acquitted.

Solicitor Bellinger had done his best to secure a conviction, and a mortally offended the numerous and influential friends of the defendants, who tried hard and unsuccessfully to prevent his re-election this summer.

Our candidate for president, Hon. William G. Bremner, proved himself one of the greatest men of the century. If not of all time, the power which gave us Washington, Jefferson, Jackson and Lincoln has by its almost miraculously brought him into security to the forefront of affairs.

MORE THAN AN ORATOR. He is a profound thinker, a historian—a statesman. He is striving, to the last gasps of human endurance and at the risk of his life, in a campaign which is one protracted and tremendous debate, to save his country. Is there any honest heart that does not go to him in this great struggle? We see him almost alone like a knight in armor, armed cap-a-pie, with truth and righteousness, battling against gigantic powers that now have possession of the world. Shall we not support him? Shall any petty picaresque turn us aside? Let us follow where he leads, and like where he strikes. Almost without newspaper—without wealth—he takes on shield a thousand spear points and strikes forward, laughing, to beat at the swarming hosts of the enemy.

every populist in the United States must, we on, and we will follow to the last gasp with truth and loyalty.

There are over eighty witnesses to be heard. The testimony today showed that the victims came to their death from injuries inflicted by defendants. The medical testimony showed the floggings to have been inflicted with such severity as to paralyze the muscles of the back and arms of the victims. The entire State is watching the trial with the greatest interest.

There is mightier than any court in the world of leaders.
